

XIII Conference on Theoretical Nuclear Physics in Italy Cortona, April 6 – 8, 2011

Main Topics:

- Nuclear Structure
- Few-Nucleon Systems
- Nuclear Physics with Electroweak Probes
- Nuclear Dynamics and
Relativistic Heavy Ion Collisions
- Structure of Hadrons and Hadronic Matter
- Nuclear Matter
- Nuclear Astrophysics

Special talk by Prof. Carlo Bernardini to
celebrate the 100th anniversary of the discovery
of the atomic nucleus by Ernest Rutherford

Award ceremony of the first ``Adelchi Fabrocini Prize`` for young
italian researchers working in Theoretical Nuclear Physics

Organizing Committee:

Ignazio Bombaci (Pisa)
Aldo Covello (Napoli)
Laura Elisa Marcucci (Pisa)
Sergio Rosati (Pisa)
